

All-in-One Modular Plug Crimp Tool

Description

The new **All-in-One Modular Plug Crimp Tool** combines a rugged design with multi-purpose functions. The primary tool for all telecom and network installers working with RJ45, RJ11, RJ12 & RJ22 (Handset) modular plugs. Three crimp cavities for 4, 6 & 8 position modular plugs. Built in cutter and two strippers for both round and flat cable. Manufactured to provide precise, repeatable and reliable terminations every time...for a very long time!

- Three separate crimp cavities.
- Ratchet mechanism with quick release assures optimum termination.
- Round wire cable stripper.
- Flat (silver satin) cable stripper.
- Cable cutter.
- All steel frame with rust resistant black oxide finish.
- Rugged PVC handles.

Application

For use with the following modular plug connectors, stranded & solid.

- RJ45 Cat 3/5/5e/6 (8X8).
- RJ12, 6 position (6X6).
- RJ11, 4 position (6X4).
- RJ11, 2 position (6X2).
- RJ22, 4 position (4X4).

Marking/Packaging

- Clamshell(C) or boxed.

Technical Data

- Weight: 12 oz.
- Dimensions: 2.75" x 8"
