

PTS Pro Crimp Tool

Compatible with:

- ezEX-RJ45®
- EZ-RJ45®
- Standard RJ45

P/N 12520C

Crimps both EZ-RJ45 and ezEX Platinum Tools connectors

Cutting and stripping blades in handle of tool for Cat5e/6 cable

The **PTS (Pass Through Standard) Pro Crimp Tool** takes years of Platinum Tools innovations and combines multiple tools into one sleek design. The PTS Pro allows the termination of both ezEX-RJ45 Connectors and the legacy EZ-RJ45 connectors in a single tool with no part changes. The tool utilizes a sliding plate to change between the different types of connectors and a captive thumb screw to make swapping between connector styles seamless. The tool features a connector locking mechanism so connectors “click” into the tool for termination. This tool also includes the cutting and stripping blades for Cat5e and 6 built directly into the handle. A single tool for all the Platinum Tools terminations.

Specifications:

- Crimps both EZ-RJ45 and ezEX Platinum Tools connectors
- Crimps standard pass-through and standard RJ45 connectors
- Connector locking mechanism for audible “click” when the connector is inserted into the tool
- Cutting and stripping blades in handle of tool for Cat5e/6 cable
- Wiring guide printed directly on the tool for easy connector wiring
- Ergonomic grip for comfort during extended use
- Replaceable blades
- Captive thumb screw for adjustment of the crimping plate
- Smooth single cycle operation
- For both UTP and STP connectors
