

# Fiber Optic Launch Cables

Platinum Tools Fiber Optic Launch Cables  
for OTDR Testing

## Ensure fiber optic OTDR tests are complete and accurate with a launch cable.

Platinum Tools fiber optic launch cables come in 3 different sizes and two different configurations to ensure you are covered when testing fiber optic cable. Each launch cable comes with a variety of adapters to ensure you can run a test on nearly any single-mode fiber optic cable. Designed with micro armored fiber and rugged exterior cases, these launch cables are fit for any job site.
